WORK EXPERIENCE

Walkthru inc   January 2018 — Present
Full Stack Developer intern

Working remotely as a Full Stack Javascript developer primarily with Nodejs, PostgreSQL.

Walkthru is a B2B SaaS PaaS based startup based out of New York City and incubated by Social Innovation Lab at John Hopkins University. It enables business managers to create, maintain and update walk throughs with no coding experience. For the spring term will be working with other interns across various states in USA, Canada ,Europe and India as well as collaborating with the in house team from New York city.

EventBeep Entertainment   June 2017 — August 2017
iOS developer intern

Worked as an iOS developer intern working on the Eventbeep.com's iOS application from scratch along with another intern. Worked on whole structure flow of the application from prototyping to development phase.

EDUCATION

BTech, Computer Science   August 2017 — Present
Lovely Professional University

One of the most active students from the university, I can usually be found conducting tech workshops and hackathons around the school

High School   April 2005 — May 2017
Akshara International School
